Build The Tower!

About this game

The game **"Build The Tower!"**

This game was developed by students of the BMSTU during training under the program "System Architect" at the Technopark Mail.RU. The game is a casual arcade with elements of strategy and RPG. For more information check the page of the game on [GitHub](#).

Наш проект это:

- бекенд – на джаве
- фронтенд – не на джаве
- работающий мультиплеер
- новейшие технологии HTML и CSS
- ~~магия~~ прямые руки
- красивый фон
- отличное (просто превосходное) логирование
- Дорофеев – читер
- работает на мобилках

А остальное вы увидите на примере
